

## **Acknowledgements**

First and foremost I owe a debt of gratitude to my esteemed supervisors, Prof. Mark Schaffer and Prof. Karen Turner for their invaluable guidance, patience, encouragement, support, discussions, and for everything that they have thought me throughout the course of my Ph.D.

I would also like to thank Dr. Julian Fennema for his helpful discussions and encouragement throughout my research and Dr. Reuda-Cantuche for providing me with data requirements which were essential for the successful completion of this thesis

Finally, I would like to express my gratitude to my partner, my parents, and the rest of my family for their consistent support, encouragement and everything that they have been doing for me.
